

ANIMAL ANTICS

All pets, whatever their shape and size have a major positive impact on our general health and well-being and provide entertainment, affection, companionship and unconditional love. As a small child my love for animals brought me to this poem, which, to this day, I recite with a hearty smile! I hope you receive as much pleasure from it as I have over the years.

MY DOG

You're one in a million,
You're special to me,

Affectionate, loyal
and good company.

You're there when I'm lonely
and life seems a bore,

You cheer me and offer
A comforting paw.

The look in your eyes
Says you quite understand

As you thrust a bewhiskered
wet nose in my hand.

You never desert me
Wherever I go,

You're a far better friend
Than some people I know!

So, I thank you by writing
this short monologue,
to my Faithful, Devoted
Companion - MY DOG.
